

■ E Commerce Solution

Easy create and maintain your eshop by S.Mart

S.Mart

S. Mart is the best and easiest E-Commerce System for your business!

E-Trading & E-Shopping practice already widely and deeply adopted by the market, became an unstoppable trend. It is not just an extremely convenient and joyful shopping experience to the end-users, but also a new way of trade business with unlimited opportunities.

Through the platform of E-Commerce, SME can make higher profit without bearing the high running costs of physical stores and offices.

On the other hand, enterprises can get the first hand market intelligence through the deployment of E-Commerce, before setting up physical points; especially in new markets. That increases their expandability but lower the risk.

However, there are common problems with current E-commerce platforms

- ❌ 1 - Complex and time consuming content management steps
- ❌ 2 - Poor functionality and flexibility (e.g. limited hyperlink insertions)
- ❌ 3 - Lack of vendor support
- ❌ 4 - Difficult to integrate with other systems.
- ❌ 5 - High maintenance costs (rely on IT / Web masters)

S. Mart Our strength:

- ▶ **Simple Content Management steps** - The interface is designed for non-IT users, with straight forward and logical steps.

▶ **Powerful Functions:**

- Multi Language Interface
- Multi-Currency
- Membership Login
- Strong Layout Templates
- Different Product Categorizations
- Support variety of payment gateway
- Access Authorization and Control

▶ **One-stop Solution**

S.Mart is a packaged E-commerce platform for quick deployment, with implementation, training and after-sales support services.

- ▶ No IT knowledge required
- ▶ Highly flexible and extendable functions are ready to support your fast growing business, such as seamless Integration with ERP, POS, SMS, Email System, etc.
